Lighting Solutions, LLC

*Energy Efficient Systems with a **Green Guarantee***

GREEN GUARANTEE

Green, though not a new concept, is the current global buzz word for a broad range of environmental and conservation initiatives to save energy, water and natural resources, to reduce green house gas emissions and to conserve and protect our world. Green is everywhere—green buildings, green cars, green energy, green lighting... Everyone is looking to go green—private businesses and public entities. All are excited to go forward towards reducing energy consumption and saving operational costs until the rude awakening—**COST**. The big cost differential between conventional energy sources and the new green initiatives is a big hurdle riddled with uncertainty for the consumer.
THE SOLUTION. . .

The Green Guarantee in GreenPLS has been formulated to give consumers the confidence to go forward with their green lighting initiatives.

- ✓ NO UPFRONT CAPITAL
- ✓ Green cutting edge Solutions
- ✓ IMMEDIATE energy savings
- ✓ Green House Gas REDUCTIONS of 40-85%
- ✓ IMMEDIATE cash savings
